

Enhanced Archaeological Map of Bulgaria

National Institute of Archaeology with Museum of the Bulgarian Academy of Sciences

- Dataset publication and availability at international level
- Geographical location of archaeological sites
- Access to legacy data
- Improving data quality
- Overcoming fragmentation and isolation

Impacts and recognition

- Impact
 - Easy access to the data at international level
 - Spatial location of archaeological sites
- Also we did...
 - Mapping of metadata to a common dataset model and international thesaurus
 - Translation in English
 - Training of young scientists on data standardisation
- *“The ARIADNE project made it possible for the Archaeological Map of Bulgaria to become known on the international level through improved data management, mapping and sharing. All this is useful for both national and international researchers” – Bulgarian Ministry of Culture*
